President's Message

Each and every child is born with hundred percent memory and infinite energy. As age advances, our teaching, surrounding environment, do's & don'ts, family structure, whatever may be going on, eating, talking each and every second's activity-in front of the Godly figures, affect them and gradually make them human being like us.

All kids are gifted, some just open their packages earlier than other. If we are able to save the naturally acquired energy level of our kids and make available provisions of proper nourishment, it is possible to have very enthusiastic, intellectual, and value-based future generations who can stand as pillars of this beautiful world. About 95 % of brain development occurs, neuroscientists says, up to the age of 7 or 8 years, maximum exposure to various activities and opportunities can give a very good and sound foundation for the future. Our aim is to lay the foundation so that our goal of life will be achieved automatically.

Secretary Message

APS Philosophy may be different from that of any other school you are considering as a student. You are here to prepare for a joyful and fulfilling life now, through your school days and beyond. We will present you with an opportunities to sharpen your mind, to expand your academic knowledge, and to stretch your intellectual reach while you develop your skills as an independent thinker and Confident communicator.

In the mean time, remember that you are more than an academic machine. we want you to love learning and achievement but we also want you to enjoy the arts, nature, recreation and friends as you develop your own evolving perspective on the world.

Dr. Mrs. Shamika N. Survase
Secretary
Anandi Public School, Udgir.

Principal's Message

At Anandi Public School we focus on complete development of our students by involving them in both scholastic & co-scholastic activities as suggested by CBSE In New Education Policy. I am sure this will help our children to realize, understand & explore their talents. Let us allow our children to develop physically & mentally.

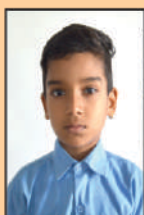

Children learn a lot of values when they are involved in activities. Some of these life skills & values cannot be taught in the classroom or at home. APS provides enough opportunities for the children to participate in different kind of activities. "If a plant is carefully nurtured by a gardener, it will become good, and produce better fruits." Therefore, children must be given a good training from their earliest childhood. We are here for the same. I am sure that our students of today, tomorrow will carry forward the Motto of love and unity entrusted in their hands at Anandi Public School.

My commitment to our community is to lead the school with enthusiasm and passion to enable us to reach our goals. Let us work together to make APS as the best school, We look forward to welcoming you to be part of our vibrant learning community.
